ABOUT THE WEBINAR

This International webinar organized by Department of Chemistry in association with Siddhachalam laboratory Raipur (C.G.), would provide a common platform for experts, young scholars and students to present their work interact and exchange their innovative ideas in the field of functional materials, water treatments, Engineering, Agrochemistry etc. Further, as you know, the Covid-19 pandemic has caused a huge disruption in the conduct of academic programmes and opening up of the academic institutions across the country. Now, educational institutions are slowly opening up. Under these circumstances, it is highly imperative to organize conference for researcher to motivate and promote. In this context, the webinar is an endeavour towards recent trends on science and technology. Hence, this international webinar will prove instrumental in discussing various aspects of research and interactive session with experts.
